# COVID SAFE WORKPLACES

HLTINFCOV001 COMPLY WITH INFECTION PREVENTION AND CONTROL  
POLICIES AND PROCEDURES..

This new unit of competency is on offer in combination with a selection of another  
two "elective" units which are relevant to the industry sector

## COURSE OVERVIEW

New infection control standards now  
apply to all workplaces,  
especially in the retail and hospitality  
sectors.

To return to work safely, specific  
COVID-19 skills training is now  
available.

Workers will receive expert training in  
best practice methods and learn how to  
implement safe operating procedures to  
reduce risk of transmission of infection at  
work.

Upon completion of this short-course  
program they will attain a Nationally  
Accredited Statement of Attainment in  
line with safety compliance obligations.

## KEY LEARNING

- Personal and hand hygiene
- Use and scope of personal protective equipment
- Surface cleaning
- Reprocessing procedures for equipment
- Types of additional precautions and their relevance to particular areas of work or client groups
- Types of hazards in the work environment and associated risks and control measures
- Chain of infection
- Basis of infection
- Key modes of disease transmission
- Factors that increase the susceptibility to infection

## PLUS

Another two elective units from the  
Certificate III training package (for  
either Retail or Hospitality). Refer to  
the relevant Course Outline (for  
either Retail or Hospitality) which lists  
the elective subject units available.

## WHAT YOU WILL RECEIVE

Upon completion of the training,  
workers will receive a Statement of  
Attainment for all three (3) subject  
units including the HLTINFCOV001  
[COVID-19] unit taken from the  
Health Training Package (HLT)
